

Metal Color Options

Our aluminum fixtures like the newGROWTH series all start out with a brushed aluminum finish. It is a beautiful finish with great reflectivity and longevity. If that isn't for you, we also offer a variety of paint and wax based finishes like our blackened patina which resembles graphite, our antiqued brass and bronze finishes as well as our Satin White which resembles carved plaster which we applied to our newGROWTH work. We are always happy to accommodate more specific needs with any paint finish you may have in mind -- just ask.
